GRAF COMPLETED TRIP AROUND WORLD FAMOUS WOMAN FLYER CRITICALLY INJURED

GIANT DIRIGIBLE **BREAKS RECORD FOR ENCIRCLING WORLD**

ACTUAL FLYING TIME WAS LESS THAN TWELVE DAYS FOR FEAT

BY W. W. CHAPLIN (Associated Press Staff Writer.) NAVAL AIR STATION, LAKEHURST, N. J., Aug. 29. (AP)—Looping the loop around the world in one of the greatest exploits of flying history, the German di-rigible Graf Zeppelin settled to earth at 7:13 o'clock E.

S. T., this morning just 21 days, seven hours and 33 minutes after leaving on her 20,000 mile journey.
Actual flying time, deducting the time spent on the ground at Friedrichshafen, Toklo and Los Angeles, the only three stops that were made was 11 days, 23 hours and 14 minutes, both flying and elapsed times breaking all previous records.

The last leg of the flight from Los Angeles, was completed in 51 hours and 59 minutes.

Previous Record Eclipsed

The previous record for elapsed time around the world was made last year by John Henry Mears and S. B. D. Collyer, who used planes year land and ships across the Atlantic and Pacific. Their time was 23 days, 15 hours and 21 minutes.

The only previous flight around he world in any sort or air craft was made in 1924 by the United States army fliers. They took 175 days and six hours was spent actually in the air.

The weather was perfect as the Graf reached the end of the first flight around the world of a lighter-than-air ship. A warm morning sun shone on the great bag's silver sides as it floated in from (Continued on Page 16.) to earth at 7:13 o'clock E.

403 **Used Cars** In Eight Months

Four hundred and three used cars have been purchased from us by automobile users of Navarro County since January first this year, to date. This record-breaking volume of used car sales is attributed by us to public recognition and confidence in our strict adherence to the principles as outlined in our used car policy below:

STATEMENT OF POLICY:

TRAINED MECHANICS Each car that is traded to us on the purchase of a new Chevrolet Six is immediately put through a careful inspection by factory trained mechanics and is put into good serviceable condition before being offered for sale.

GENUINE PARTS

Only genuine Chevrolet parts are used to replace worn or broken parts and only genuine DuPont Duco is used to refinish a car where new paint is necessary.

As Chevrolet dealers we are fully conscious of the tremendous importance of reselling used cars on a basis that will increase public good will. We believe that the best method we can use to do this is to recondition the used car you buy in such a manner as to assure you of "Satisfaction, Dependability and honest value."

The wonderful public acceptance of the New Chevrolet Six has placed us in better position than ever before with reference to used cars handled and you are cordially invited to inspect our wide range of types and models. Both at our used car lot on North Beaton Street and at our used car store on Main Street. We particularly invite you to inspect them from the standpoint of comparative condition and value.

Britain and Germany Win.

Great Britain and Germany are sown to be the principal beneficiaries by a summary of the work of the conference so far as it is now known.

Chancellor Philip Snowden got between 70 and 80 per cent of the increase he demanded in Britain's share of the Young plan annuities.

The Germans gained their point in obtaining evacuation of the Rhine.

Dumb Waiter in Jail Proves Be Not So "Dumb"

ALBANY, Aug. 29.—(F)—Those service elevators that bring up butter and eggs through a gossip-laden shaft aren't always "dumb."
One of them—it was in a jail—helped a couple of prisoners to escape from the Shackelford county bastile last night.
The sheriff's wife, after sending up the prisoners' suppor, retired to the yard for a breath of fresh air. Her husband was away, getting a shave.
Arthur Whitehead and Pedro Fernandez removed the tray, rode it down, one after the other, into the kitchen and made a clean get-away.

MORE HOSPITAL FACILITIES FOR **VETERANS URGED**

ST. PAUL, Aug. 29.—(P)—Additional hospital facilities for disabled veterans throughout the United States was demanded in a resolution adopted by the Veterans of Foreign Wars at their 30th annual encampment here.

Adopting the report of its committee on legislation, the veterans also went on record as favoring increases in pay for all of the military forces of the nation, liberalization of rules relating to hospitalization of veterans and endorsing the Brookhart bill providing for immediate payment of adjusted compensation allowed by the government. The organization also recorded itself as opposing the placing of any time limit on filling claims for disability and also to permit suit by the claimant on any denied claims.

TO PREACH SUNDAY It has been announced that Rev. E. L. Liddell, missionary of Corsicana Baptist Association, will preach at Rodney church at 11 a. m., and 8 p. m., Sunday, Sept. 1st. Everyone in the community is cordially invited.

COMMERCIAL ASPECT OF CRUISE OF BIG SHIP DIS-CUSSED BY DR. ECKENER

CUSSED BY DR. ECKENER

LOS ANGELES, Aug. 27.—(P)—
Dr. Hugo Eckener, Graf Zeppelin commander, who found his stay in Los Angeles too busy and too short to grant extended interviews to newspapermen, just before his departure with the dirigible for Lakehurst today, dictated a discussion of the practical and commercial aspect of cruises such as that being completed by the Zeppelin. Commander Eckener based his statement on questions submitted to him.

"Trans-Pacific travel is entirely feasible with Zeppelin airships," Dr. Eckener said, "but such ships designed for regular commercial service should be larger and faster than the Graf Zeppelin.

"The maintenance of regular passenger service by Zeppelin airships around the world presents no technical difficulties, but presumes the establishment of complete ground support for the airships, such as hangars, masts and fuel supplies.

"The flight now nearly finished proved that Zeppelin airships need not fear any type of meteorological disturbance. For instance, we flew 40 hours through fog and rain, and at the end of that time, when we came to verify our position with a Japanese merchant vessel, we found we were on our course."

That advertisement carried me into the heart of this Sunday school lesson, I know those big Philadelphia-made omnibuses, which are the most comfortable form of transport across the terrible desert; for I rode in the first of them that made the Bagdad-Beirut trip. They are now escorted by armored cars, and accompanied by a convoy of tourist cars. Every round-the-world tourist who adventures this journey counts it his most interesting experience.

If the traveller has imagination, he will have as companions on the interesting experience into the first of them that the striple desert trip, under Ezza's leadership, has its own message for neighbor drink.

Of the Extles, Ezza is still held in high honor.

With reason. He was passionate-ly a patriot. And no man is worth remembering who is not, in heart in Germany toward conservative Christianity. The recent world convention of Lutherans in Copenhage was a tonic to simple faith. Some headlines would lead us to believe that China has repudiated Christianity: yet the true story of the fidelity and progress of the fidelity and progress of the fidelity and progress of turnoil is going to solve our problems. Love of one's own country, with the fidelity and progress of turnoil is going to solve our problems. Love of one's own country, with the fidelity and progress of the fidelity and progress of turnoil is one of the romances of religion. Ezra's leadership of his people into a deeper religious loyalty has its counterparts today.

So has the zeal of the people. This host of Jews who made the terrible desert trip, under Ezra's leadership, has its own m

Neither church nor state can thrive without the support of strong, keen pens. One of the scantily-appreciated forces for wholesomeness in our national life is the integrity and courage and clear moral vision of the editorial writers of the land. Yet who ever heard a preacher pray for editors? And Ezra was as definitely an editor as he was an author.

While prais-ing the leaders, let us not forget the heroic followers.

A Champion of Law This lesson is opportune as a study in law-obesrvance. There was no separation between religion and righteousness in Ezra's thinking. He was leading his people back to a full observance of religion, which meant also to social righteousness and to national loyalty. "Ezra prepared by the law of th and to national loyalty. "Ezra pre-pared his heart to seek the law of the Lord, and to do it."

TILLIONS OF MOTORISTS, all over the world, already ride on RIVERSIDE Tiresand still more millions soon will.

You will agree that . . . with the Super-Service RIVERSIDE guaranteed for a minimum of 30,000 miles-the First-Quality RIVERSIDE guaranteed for a minimum of 16,000 miles-and the WARDWEAR for 10,000 these tires simply must be tires of quality!

And then - on comparing RIVERSIDE prices with many other high-grade makes that are not officially guaranteed for any specific mileage-you are astonished to find that at Ward's your saving per tire ranges from \$2 to \$15!

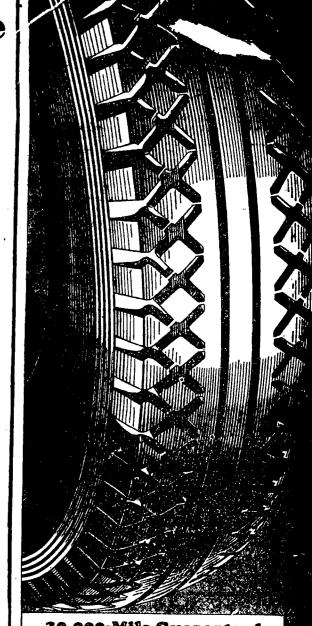

A It's surprising. You are frankly puzzled. You discovered, long ago, that there's no such thing as "getting something for nothing." Therefore, when you find, in tires, high quality, provable quality and guaranteed quality coupled with prices so low they seem to contradict all that you "wonder," don't you?

You needn't! For the simple explanation lies in Ward's plan of selling to the user direct.

Instead of cutting quality in any shape or manner, we merely cut out most of the in between profits of ordinary distribution! Thus you are protected at both ends of your transaction: on Quality, by the guarantees on Economy, by the unusual savings of Ward's low prices.

Do you know of-or need-any better reasons for putting Montgomery Ward & Co. tires on your car? Or any better arguments than these facts proving why you save \$2 to \$15 on every tire you buy?

Don't buy any other tire unless more miles are guaranteed!

The text of the bill will be made public tomorrow by Chairman Smoot, and a tentative draft of the senate next week will be released Thursday or Friday. Whether a special effort to answer the most recent democratic attacks will be made at that time has not been indicated.

One of those attacks, published today, came from the democratic national committee in a statement charging "the iniquitous character of the bill remains unchanged though some of its features have been altered" by the finance committee majority. Describing the rewritten measure as "intended to make a soft bed for the administration to fall upon," it said:

"Defense of the pending bill on the ground that the finance committee has removed the curse from the Hawley bill, as it passed the house, is a transparent subterfuge."

Is Your House in Order for The Rush of the Coming FALL SEASON?

Cotton Time is Busy Time for Those Who are Up and Doing

Navarro County Will be in First Line Rank In Cotton Production This Year

The best authorities on cotton production announce that Navarro County will make a bumper cotton crop this year. Their conservative estimate of the cotton crop for this year is not less than 88,500 bales, with every indication leading to a crop to be as much or to surpass that of last year, which was over 94,000 bales.

You know what this will mean, Mr. Business man, so why not get your house in order and be on your tip-toes to get your full share of the coming prosperity.

Now is the time to get busy and make your plans for cotton is already beginning to come in. The business will be here for you if you will only make the effort to get it.

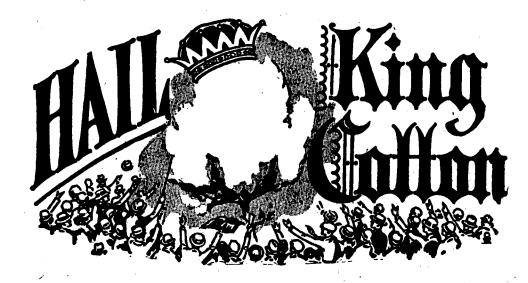

Navarro County Is In Excellent Condition

Navarro county will be among the few in the first ranks that will make a bumper cotton crop. This fact is already assured by those who have acquainted themselves with the crop, and through years of experience in the game know how to judge a cotton crop.

With a substantial feed crop laid by and with the banks of the county claiming that the farmers owe them less than they have for a number of years, means that much of the cotton money will be free from debt and thereby turned loose through the business channels.

From all indications Navarro county will be in better financial condition this fall than any county in Texas.

It has had the odds in its favor as compared to other big cotton producing counties, and with other sources of revenue from oil, industry and other sources there is every reason to predict a good fall business with a prosperous year in 1930.

What Cotton Means To Navarro County

While Corsicana and Navarro county are not solely dependent upon cotton at the same time it is the most important of our livelyhood.

The cotton crop this fall will without a doubt bring into the county over \$10,-000,000, including cotton and cotton seed. Our feed crop will mean millions more,

This much money will be spent in all channels of activity.

Then, too, Corsicana is in the center of a cotton area that will produce around

SHREVEPORT, La., Aug. 27.—
OP—Joe Parker, nine-year-old son of Deputy Sheriff O. L. Parker of Dreka, Texas, is in a critical con
dition at a local sanitarium as the result of being shot in the face with a .22 calibre rifle Monday, said advices today from Center, nearby Texas town.

Young Parker and other boys were playing in some woods when, it is alleged, he angered a 14-year-old youth by knocking the latter rifle into the dirt. It is claimed the latter pleked up the weapon and fired at the Parker boy, who was struck near the nose.

There was an orderly Moslem and Christian—demonstration in Beirut, the manifestants displaying no anti-government sentiments.

In Damascus a scuffle broke out between local police and a small group of Arab manifestants. Several persons were wounded but the trouble did not spread.

A great mass meeting will be held in New York City Thursday night at which thousands of men and women of the Jewish faith from many Eastern cities will gather in memory of the Jews killed in Palestine.
